

- a strong solution for the environment

Type 1: Fixed rollers

Type 2: One fixed and one movable roller

# BOTTLE CRUSHER

Capacity for both types is approximately 3 tonnes/hour

Both types of the ReTec Bottle Crusher can be used for volume reduction of glass. Capacity for both types is approximately 3 tonnes/hour, although this to some extent depends on the desired size of the output. Both types of the ReTec Bottle Crusher can

be either implemented in an existing installation or used as stand alone machinery.
